## **DETAILED ACTION**

### ***Response to Amendment***

1. This communication is responsive to the amendment filed on 10/16/06.

Accordingly, claims 7-9 are currently pending in this application.

2. An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

***Claim Objections***

1. Claims 7 and 8 are objected to because of the following informalities:

In claim 7, line 24, "N/2+1" should be replaced with "N/(2+1)".

In claim 7, line 28, "is the" is duplicated and should be deleted.

In claim 8, line 1, "Said codes in Claim 7" should be replaced with "The method of claim 7 wherein said codes".

***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 7-9 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 7-9 are directed to a method of generating codes without a practical application. Refer to

[http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/guidelines101\\_20051026.p](http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/guidelines101_20051026.pdf)

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claim 9 recites the limitation "said hybrid Walsh", "said Hadamard", "said Walsh" and "said DFT" in lines 20-21. There is insufficient antecedent basis for this limitation in the claim. Independent claim 9 cannot refer back to independent claim 7 to overcome antecedent basis, per applicant's remarks in paragraph 5, on page 3 of the amendment. It is suggested to delete the term "said".
